

# Baixe o Cyberduck

<https://cyberduck.io/download/>

## Free Software.

Free software is a matter of the users freedom to run, copy, distribute, study, change and improve the software. The continued donations of users is what allows Cyberduck to be available for free today. If you find this program useful, please consider making a donation or buy the version from the [Mac App Store](#) or [Windows Store](#). It will help to make Cyberduck even better!

## Download [Changelog](#)

↓ Cyberduck for Windows  
Cyberduck-Installer-8.5.6.39394.exe

**Version 8.5.6**, 17 Feb 2023

MD5 9d77a58736c84ed2a95a53ff6b2dd39d

Windows 10 (64bit) or later required.

↓ Cyberduck for macOS  
Cyberduck-8.5.6.39394.zip

**Version 8.5.6**, 17 Feb 2023

MD5 6c678986bde35c254579a83f7e5f46f1

macOS 10.12 or later on Intel (64bit) or Apple M1 required.

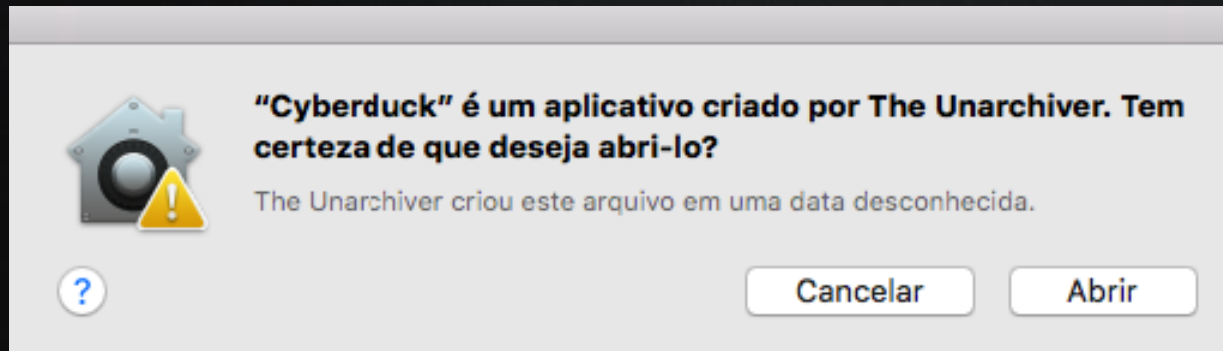

Após ter realizado o Download do arquivo **.zip**, realize a extração

 Mac OSX - Cyberduck-7.2.5.32097.zip

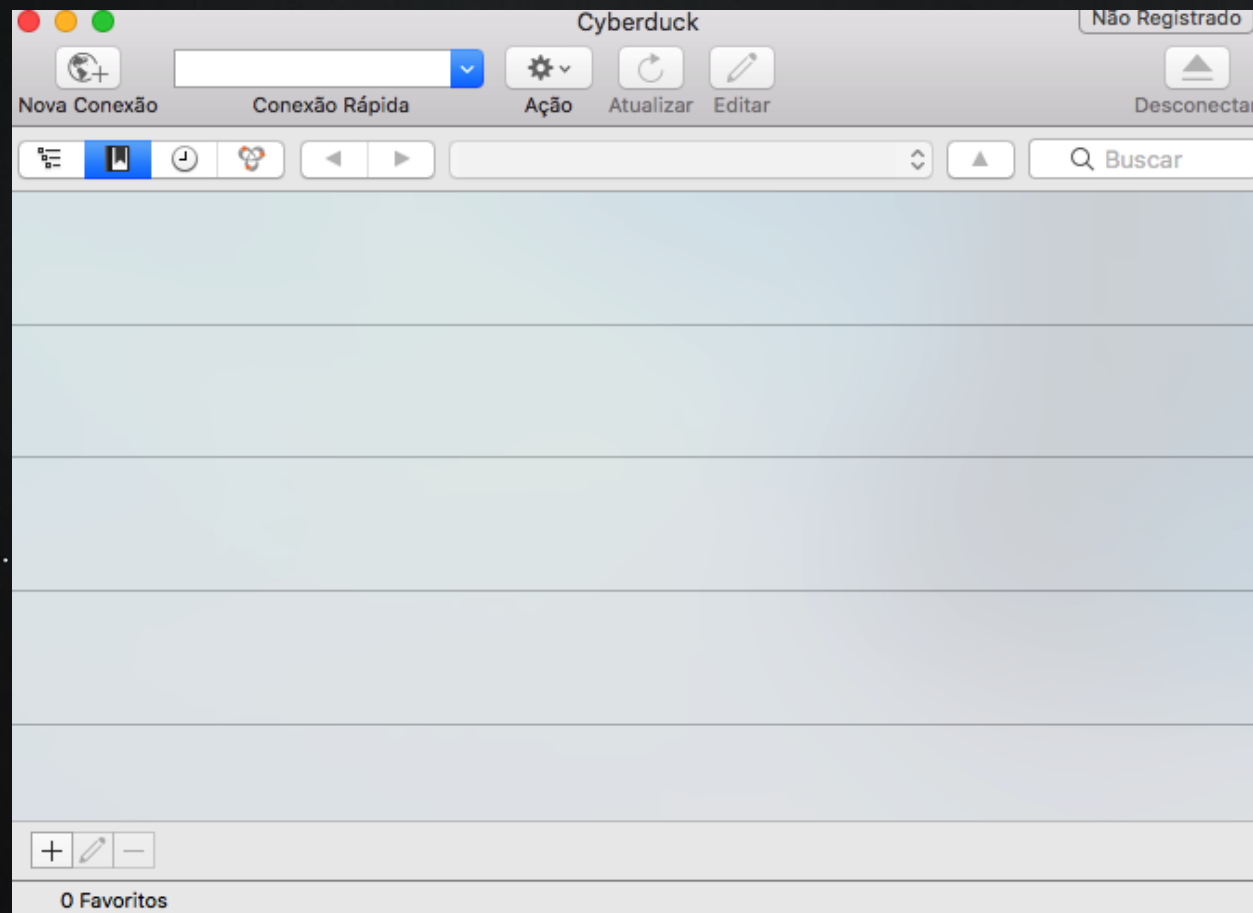

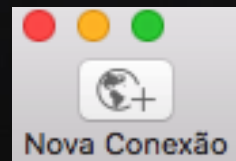

Após ter realizado a Extração do arquivo **.zip**, o aplicativo estará disponível para a execução

 Cyberduck

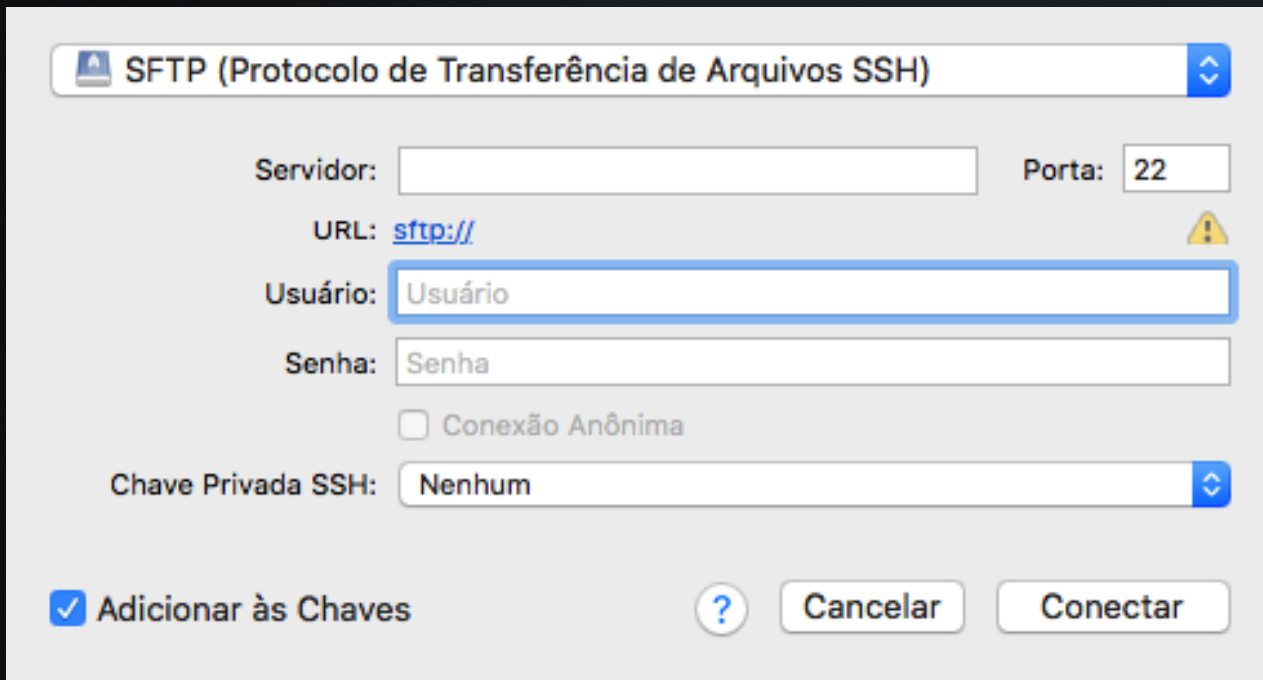

Executando o aplicativo a seguinte tela irá ser exibida. Clique em **Abrir**

A tela do aplicativo irá ser abrir. Clique e, **Nova Conexão**

Na tela apresentada, selecione o protocolo SFTP de acordo com a figura abaixo **SFTP (Protocolo de Transferência de Arquivos SSH)**

The image shows a configuration window for SFTP (Protocolo de Transferência de Arquivos SSH). The window has a title bar with a folder icon and the text "SFTP (Protocolo de Transferência de Arquivos SSH)". Below the title bar, there are several input fields and checkboxes. The "Servidor:" field is empty, and the "Porta:" field contains the number "22". The "URL:" field contains "sftp://". The "Usuário:" field contains "Usuário" and is highlighted with a blue border. The "Senha:" field contains "Senha". There is a checkbox labeled "Conexão Anônima" which is unchecked. The "Chave Privada SSH:" field contains "Nenhum". At the bottom, there is a checkbox labeled "Adicionar às Chaves" which is checked, and three buttons: a help button with a question mark, a "Cancelar" button, and a "Conectar" button. A yellow warning icon is visible next to the "URL:" field.

SFTP (Protocolo de Transferência de Arquivos SSH)

Servidor:  Porta:

URL:  ⚠

Usuário:

Senha:

☐ Conexão Anônima

Chave Privada SSH:

☒ Adicionar às Chaves ?

Informe o IP do **Servidor** da Máquina Virtual, o **Usuário** e **Senha**  
Clique em **Conectar**

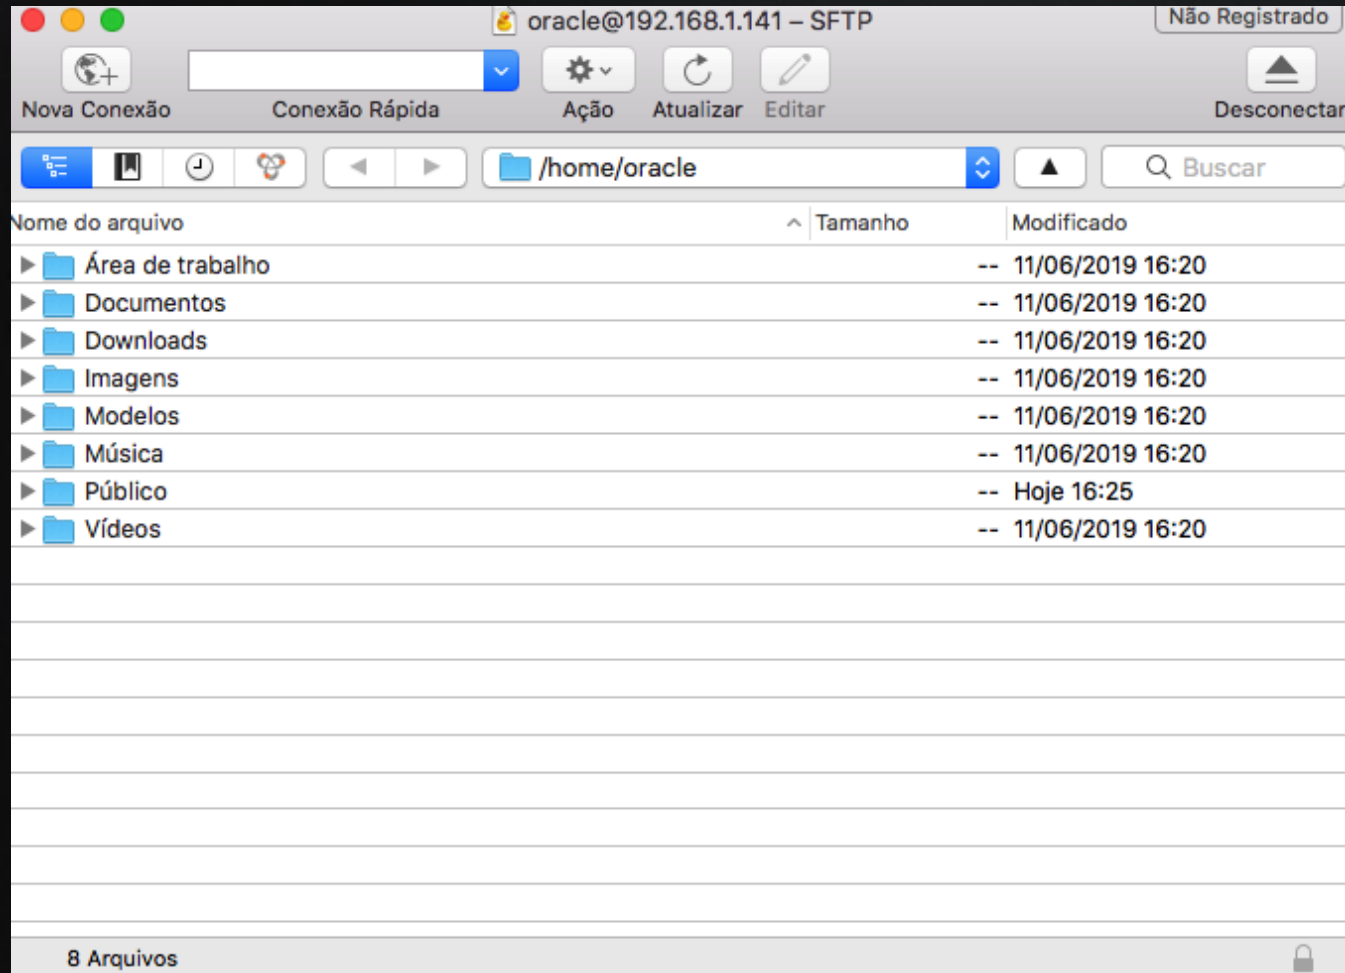

The image shows a screenshot of a software interface for establishing an SFTP connection. At the top, there is a title bar that reads "SFTP (Protocolo de Transferência de Arquivos SSH)". Below this, there are several input fields: "Servidor:" with the value "192.168.1.141", "Porta:" with the value "22", "URL:" with the value "sftp://192.168.1.141", "Usuário:" with the value "oracle", and "Senha:" with a masked password represented by seven dots. There is an unchecked checkbox labeled "Conexão Anônima" below the password field. At the bottom, there is a dropdown menu for "Chave Privada SSH:" with the selected option "Nenhum". At the very bottom, there is an unchecked checkbox labeled "Adicionar às Chaves", a help icon (a question mark inside a circle), a "Cancelar" button, and a blue "Conectar" button.

Abra um terminal na Máquina Virtual e digite o comando abaixo para saber qual o IP da máquina:

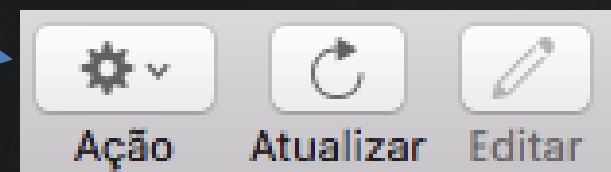

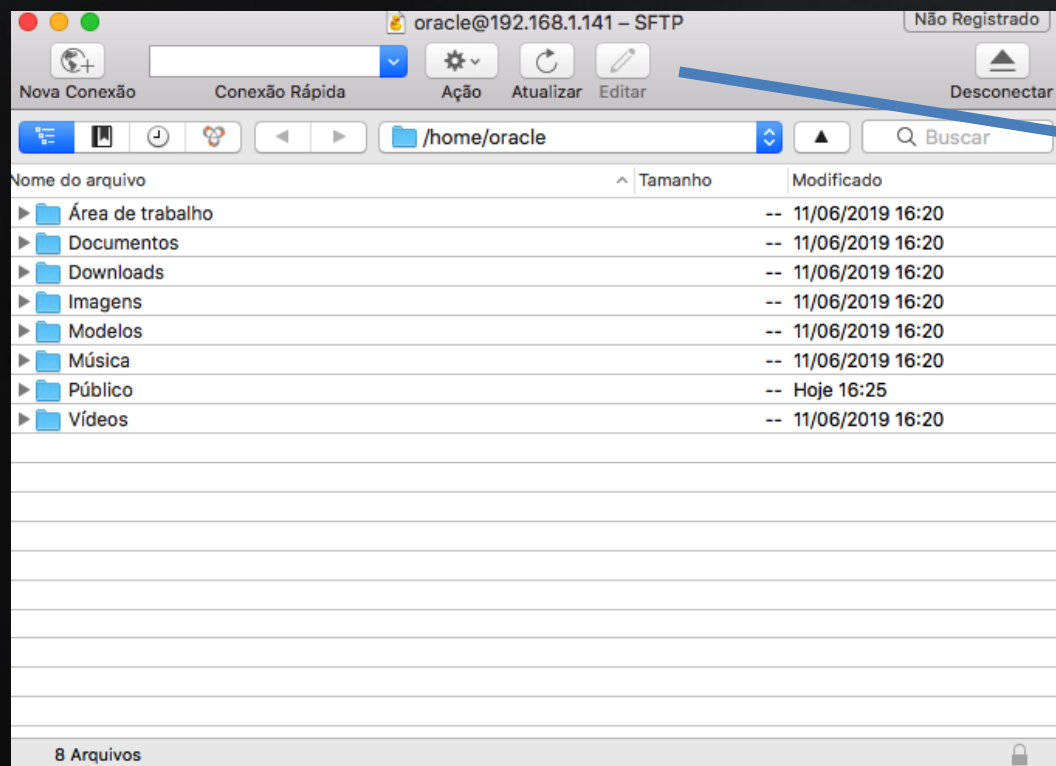

**hostname -i**

Com a **conexão estabelecida** os diretórios do Home do usuário irão ser exibidos

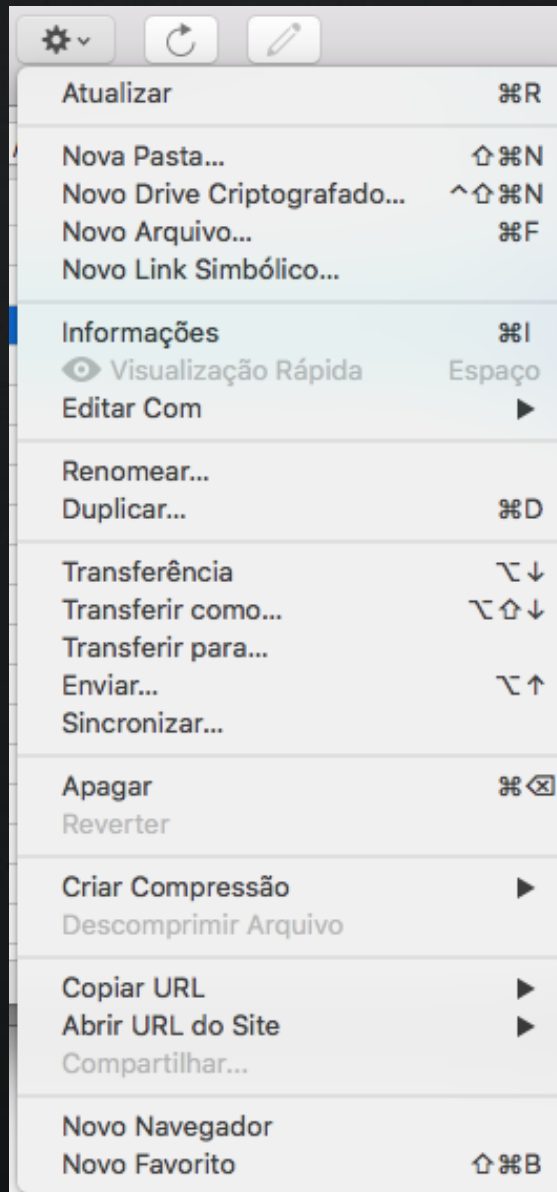

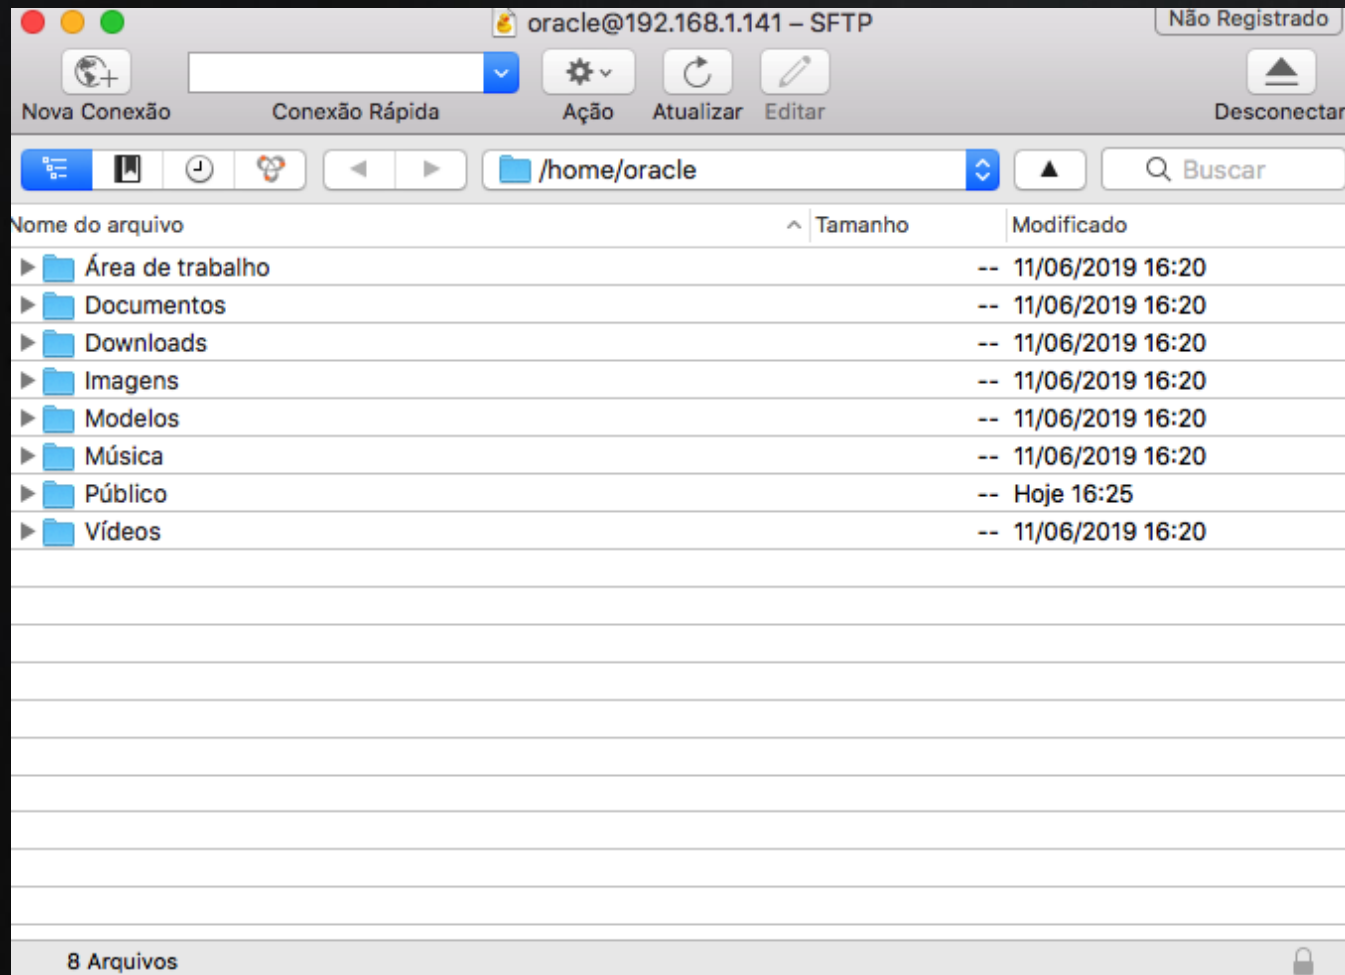

As opções e comandos estão na aba superior

# No botão **Ação** temos tudo que precisamos para o FTP

A Funcionalidade de clicar e arrastar também pode ser utilizada do seu Host (Hospedeiro) para o Guest (VM) e vice-versa
